Henley Stoves is one of the fastest growing stove brands in both Ireland and the UK.

At Henley we are committed to providing quality products at affordable prices backed up with a market leading focus on customer service.

From factory floor to family home, our customers are our first priority.

We pride ourselves on using new designs, new technology and new environmentally friendly standards to ensure we are a market leader in the provision of the latest quality affordable stoves.

We service a range of customers across Ireland and the UK from our distribution centres in South West Ireland, Dublin and Cambridgeshire in the UK.

We have a range of products from traditional wood burning stoves to a wide and exclusive range of bioethanol stoves.

Henley has been at the heart of homes across Ireland and the UK since 1989

Henley Stoves is also the producer of the Bertoneri Collection of Stone, Marble Surrounds & Fireplace Accessories.

Ask your local Henley Stockist about the 2022 Bertoneri Fireplace Collection Today

HETAS APPROVED APPLIANCE

The HETAS Approved Product logo gives reassurance to the installer & end user that the appliance complies fully with current energy efficiency and safety requirements.

ECO DESIGN READY 2022

All Henley Ecodesign stoves in this brochure are stamped with our Ecodesign Ready 2022 logo.

SIA ECO-DESIGN READY

A Henley stove with this icon is a stove which meets the future EU Standards planned for 2022.

EUROPEAN STANDARD

European Standard of testing for stoves fired by solid fuel, incorporating corrigenda September 2003, June 2006 and August 2007.

CLEARSKIES

A Henley stove with this icon is certified and listed on the clearSkies mark database.

HARP DATABASE

A Henley stove with this icon is listed on the HARP database.

AIR-WASH

All Henley stoves come with an air-wash system which helps to keep the glass clean. It uses a specially placed vent or vents to draw in air from the outside which will wash over the front of the glass.

EXTERNAL AIR

A Henley stove has an external air facility allowing the air to come directly from outside your building rather than through a vent in the room. This is required for heat recovery systems in new build projects.

5 YEAR WARRANTY

Henley stoves come with a 5 year warranty on the body of the stove.

CLEAN BURN

A Henley stove has a tertiary air system. This creates a clean-burn system where hot air is pushed into the firebox above the normal height of the fire. This allows the excess gases to combust giving a cleaner burn.

WOOD BURNING

This icon denotes that this Henley stove uses Wood Fuel only.

THERMOSTAT

A Henley stove with this icon is a boiler stove which comes with a thermostat control. This regulates the amount of air released into the stove until it reaches the optimum temperature and automatically closes.

eco design Ready Collection

Room Heaters

Ecodesign is a European-wide programme aimed at lowering emissions to improve air quality. Starting January 1st 2022 Ecodesign will apply to wood burning and multi-fuel stoves. At Henley Stoves we are committed to reducing the emissions of our stoves. The research and design that has gone into our new range of Ecodesign stoves makes them some of the cleanest burning stoves on the market.

All Henley Ecodesign stoves in this brochure are stamped with our Ecodesign Ready 2022 logo.

Avon 4.9kW Eco Design Ready,

image © jet-kim-unsplash 2019

AVON - ROOM HEATER - FREESTANDING

The Avon has a rated Output of 4.9kW. Operated by one single air control, the combustion system drastically reduces emissions and gives a superior flame pattern. The paired-down simplicity makes for a thoroughly stylish option for modern urban settings as well as traditional homes.

Premier Collection

Boilers

Our Boilers as part of our Premier Collection remain the most coveted product in the Henley range as they can drive central heating/hot water for the home. Our boilers are available as stand alone or cassette models which means there is a model to suit all our customers tastes and styles.

Achill 21kW - Matt Black

ACHILL - BOILER - INSERT

The Achill multi-fuel Insert boiler is capable of heating up to 9/10 single radiators on the 17.1kW and 13/14 single radiators on the 21kW. It is primarily designed to heat water to radiators. We would strongly recommend that a radiator is fitted in the room where the stove is installed, to maximize heat output to the area.

OUTPUT: **17.1kW, 21kW**

OUTPUT ROOM:
 ACHILL 17 **2 to 5.2kW**
 ACHILL 21 **2 to 5.2kW**

OUTPUT WATER:
 ACHILL 17 **11.9kW**
 ACHILL 21 **15.9kW**

EFFICIENCY:
 ACHILL 17 **74.5%**
 ACHILL 21 **73.3%**

ENERGY CLASS: **A**

FINISH AVAILABLE: **Matt Black**

*A Boiler's heat output to the room in which it is fitted can vary depending on how many radiators are utilised.

Dimensions

	HEIGHT	WIDTH	DEPTH	FLUE	BACKBOX HEIGHT
Achill 17.1kW -boiler - insert	590	555	500	153	560
Achill 21kW -boiler - insert	635	626	535	153	575

Sherwood 21kW - Matt Black

SHERWOOD - BOILER - FREESTANDING

Sherwood - New Range of Henley multi-fuel external air stoves. The Sherwood range needs to be installed with its own separate air supply. This external air supply allows the stove to be installed in a room that may otherwise be sealed to an extent that would prohibit the correct and safe burning of a stove.

The Sherwood 12kW Boiler can heat up to 6-7 single radiators. The Sherwood 21kW Boiler can heat up to 12-13 single radiators.

*A Boiler's heat output to the room in which it is fitted can vary depending on how many radiators are utilised.

OUTPUT:	12, 21 & 25kW

Achill 18kW - Matt Black

ACHILL - BOILER - FREESTANDING

The Achill 18kW boiler multi-fuel stove is designed to heat up to 10 -11 single radiators. It is a steel stove with a cast iron door and efficiency level of over 75%. Its secondary air mechanism helps keep your glass clean for that lovely open fire look while adding warmth to your home.

A unique eco baffle that creates extra boiler heat in comparison to a standard boiler.

OUTPUT:	18kW
OUTPUT ROOM:	6.6kW
OUTPUT WATER:	10.7kW
EFFICIENCY:	79.0%
ENERGY CLASS:	A

Druid 30kW - Metallic Black

DRUID - BOILER - FREESTANDING

The Druid 12kW - 30kW Multi Fuel boiler stoves are the most popular boiler stove in the Henley range. It is capable of heating up to 7 - 21 radiators depending on the model. It is constructed from high grade steel with a heavy cast iron door. It also has a double combustion system and cool to touch handle.

The Druid 21kW, 25kW & 30kW are available with External Air.

*A Boiler's heat output to the room in which it is fitted can vary depending on how many radiators are utilised.

* Please note: all cassette stove dimensions include frame unless stated otherwise.

** Measurement excludes frame.

*** All dimensions are correct at time of print, but may be subject to change. Please confirm exact measurements before commencing any installation works.

ECO DESIGN READY 2022:

All Henley Ecodesign stoves in this brochure are stamped with our Ecodesign Ready 2022 logo.

EUROPEAN STANDARD:

A test for stoves fired by solid fuel, Incorporating corrigenda September 2003, June 2006 and August 2007.

SIA ECO-DESIGN READY:

A Henley stove with this icon is a stove which meets the future EU Standards planned for 2022.

SIA ECO-DESIGN READY:

A Henley stove with this icon is a stove which is certified and listed on the clearskiesmark database.

HETAS APPROVED APPLIANCE:

The HETAS Approved Product logo gives reassurance to the installer & end user that the appliance complies fully with current energy efficiency and safety requirements.

5 YEAR WARRANTY:

Henley stoves come with a 5 year warranty on the body of the stove.

HARP DATABASE:

A Henley stove with this icon is listed on the HARP database.

MULTIFUEL GRATE:

A Henley stove with this icon is a stove which comes with a Multifuel Grate.

CLEAN BURN:

A Henley stove with this icon features a tertiary air system. This creates a clean-burn system where hot air is pushed into the firebox above the normal height of the fire. This allows the excess gases to combust given a cleaner burn.

WOOD BURNING:

This icon denotes that this Henley stove uses Wood Fuel only.

EXTERNAL AIR:

A Henley stove with this icon has an external air facility allowing the air to come directly from outside your building rather than through a vent in the room. This is required for heat recovery systems in new build projects.

AIR-WASH:

All Henley stoves come with an air wash system which helps to keep the glass clean. It uses a specially placed vent or vents to draw in air from the outside which will wash over the front of the glass.

THERMOSTAT:

A Henley stove with this icon is a boiler stove which comes with a thermostat control. This regulates the amount of air released into the stove until it reaches the optimum temperature and automatically closes.

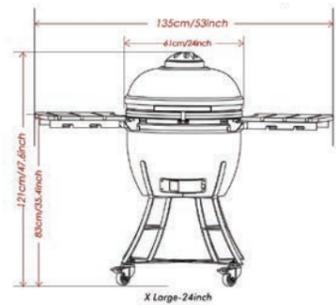

OUTDOOR RANGE

BBQ KAMADO 24

Our biggest ever BBQ, the Henley Kamado 24 is perfect for entertaining large groups of family and friends this summer. Feed 10 or more people with its 24 inch diameter cooking grate. The Henley Kamado 24 is so much more than a BBQ, with it's ceramic shell it circulates and retains heat much better than a standard kettle BBQ. The Kamado 24 model is the perfect size for back gardens, patios or even restaurants and bars.

HENLEY HALO FIREPIT

The new Henley Halo is the latest addition to our outdoor range. The Halo is a simple to use wood pellet fire pit with a unique oxygen flow system that means it creates no smoke or sparks. Once lit the unique oxygen flow system creates a Halo-like flame that dances around the rim of the fire pit. The Henley Halo uses wood pellets which produce very little ash making clean-up a doddle, just remove the ash tray and dispose of the ash.

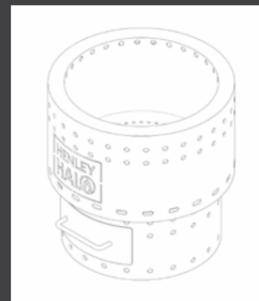

Cleverly designed ventated walls provide amazing results.

A practical ashtray for ease ash disposal.

Strong and long-lasting Steel construction.
